

2 Day Corporate Training

Skill-Lyft

Digital Intelligence for a Smarter Supply Chain

Transform your supply chain with the power of digital intelligence. This 2-day workshop equips supply chain professionals and business leaders with the knowledge and tools to leverage emerging technologies, gain real-time visibility, and build agile, resilient supply chains that drive operational excellence and business growth.

WHAT YOU WILL LEARN

- ✓ Understand the core digital technologies transforming supply chains
- ✓ Use IoT, AI, big data, blockchain and cloud to enhance visibility and efficiency
- ✓ Apply predictive analytics and digital twins for better planning and decision-making
- ✓ Strengthen cybersecurity and data governance in a digital supply chain
- ✓ Develop a practical digital transformation roadmap with measurable outcomes

WHO SHOULD ATTEND

- Supply Chain Managers and Directors
- Operations Managers and Executives
- Logistics and Procurement Professionals
- IT and Digital Transformation Leaders
- Business Leaders involved in supply chain strategy
- Anyone driving innovation in supply chain operations
