2-Day Corporate Training

Delivering Project Value:
Measure & Maximize ROI

Projects can meet timelines and budgets yet still struggle to demonstrate measurable business impact. This practical course helps project professionals connect execution to strategic outcomes by embedding ROI thinking into project charters, business cases, benefit tracking and leadership reporting. Participants learn to monitor value throughout delivery, make timely corrections, assess benefits after completion and communicate project impact clearly to senior stakeholders.

What You Will Learn

- Shape project charters around strategic outcomes.
- Build business cases that connect project features to measurable benefits.
- Apply practical tools to track value and benefit delivery.
- Monitor stakeholder satisfaction, adoption and benefit trends.
- Make mid-course corrections that protect business value.
- Conduct post-implementation reviews and benefit realisation audits.
- Communicate ROI through compelling value stories.

Who Should Attend

- Project Managers, Leads and PMO Professionals
- Strategy & Transformation Leaders
- Finance & Investment Analysts
- Product Owners & Product Managers
- CxOs & Senior Leaders
- Internal Auditors & Risk Managers
- Professionals responsible for project value and benefit tracking
